

A union of professionals

Who we are

The American Federation of Teachers (AFT) is comprised of a membership of employees from public education, higher education, state and local government, and health care/ service employees.

The basis of any union is people joining together to ensure a united voice in the workplace. The union brings together working people with similar needs. It consists of men and women united in the common goal of achieving justice and dignity for all people in the workplace, in the community, and in the halls of government.

Our purpose

The AFT at Lone Star College System is committed to our profession. We are actively involved in improving the quality of education as well as protecting professional rights of faculty and staff at the local, state, and national levels. We stand for dignity in the workplace and improving the lives of our members and families.
